

From the Desk of the Honorary President Jeffrey Levett

Participants in the Conference Non-governmental Organizations of Europe and Asia: Dialogue for Sustainable Development in 2026, December 18, 2025, UN Geneva

Dear Participant,

It was a pleasure to spend some hours with you in the Palais des Nations, Headquarters of the the UN. Having done so I take it, as an obligation to provide you with feedback. I must say that it is very difficult indeed to reach the UN but I hope I can reach you. I found no Good Samaritan within the ranks of the UN but several in our audience.

Regrettably, adverse weather conditions prevented the Belgrade delegation from arriving in Geneva Nevertheless, the Belgrade delegation successfully delivered its substantive contribution online.

It was my personal pleasure to present our revised Resolution on the exceptional legacy of Nikola Tesla and even more so that you adopted unanimously. His vision for peace was incorporated in the Resolution. It has been transmitted to the United Nations and other relevant international bodies but the rest is silence.

Through your good offices please inform all representatives of the international community about Nikola Tesla. Tesla can be the catalyst.

Jeffrey Levett
